Mike Hotka

Certificate #8

Longmont Astronomical Society

Mike,

Thank you for submitting observations for the Binocular Variable Star Program sponsored by the Astronomical League and AAVSO. I have reviewed your work and am delighted to award you the enclosed certificate and pin.

By earning the Binocular Variable Star Program Award you have contributed to the science of Astronomy. Analysis of the results of Variable Star observers have greatly contributed to better understanding of the universe we live in.

I hope you enjoyed the challenges of Variable Star observing and will continue to add your observations to the AAVSO data base for many years. Two other programs with Variable stars are the Carbon Star Program and Variable Star Program.

Sincerely,

Robert Togni
